

COMMONWEALTH TELECOMMUNICATIONS ORGANISATION

2013 CYBER SECURITY FORUM 3RD ANNUAL

BRINGING SAFETY, RESILIENCE AND SECURITY INTO CYBERSPACE

22 - 26 April 2013 • Yaoundé Conference Centre • Yaoundé • Cameroon

KEY TOPICS

- Critical information infrastructure protection: Customising global standards to national contexts
- Safe surfing for the young: Child online protection, a joint programme by the ITU and the CTO implemented in, Cameroon, Gambia, Ghana, Mauritius, Nigeria and Sierra Leone
- Ensuring security while preserving privacy: Conflict between national security interests and individual's rights
- Implications of online identity theft: From financial loss to emotional trauma
- Building norms of behaviour: Through multistakeholder partnerships across borders

ABOUT CYBER SECURITY 2013

With the critical information infrastructure of Estonia coming under attack in 2007, the focus of cyber security was elevated from an individual perspective to a national perspective. Importantly this incident highlighted the need for developing countries to implement robust and effective cyber security frameworks, without which the entire cyber world will be at risk.

VIEWS ON CYBER SECURITY 2011

"Building confidence and security in the use of ICT's."

- Ms. Cristina Buetti, Programme Coordinator, ITU

"Fruitful delivery from a huge pool of expertise, sharing of acquired experience and exposure to new technologies"

- Toonah Shah Nawaaz, Executive Operations, Data Communications Ltd.
